DETAILED ACTION

Applicant's response filed on 12/10/04 has been acknowledged.

Claims 1-27 are canceled.

Claims 28 and 29 are pending and are examined in this office action.

Applicants are required to follow Amendment Practice under revised 37 CFR §1.121. The fax phone numbers for the organization where this application or proceeding is assigned is 571-273-8300.

Claim Objections

Claim 28 is objected to because of the following informalities: Instant claim recites claim limitation "(IL-6)". Changing "(IL-6)" to (IL-6) has been suggested. Appropriate correction is required.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 28-29 are rejected under 35 USC 101 because the claimed invention is directed to non-statutory subject matter.

Claims 28 as written, do not sufficiently distinguish a fragment of V-IL-6 as they exist naturally because the claims do not particularly point out any non-naturally occurring differences between the claimed products and the naturally occurring products. In the absence of the hand of man, the naturally occurring products are considered non-statutory subject matter. See *Diamond v. Chakrabarty*, 447 U.S. 303, 206 USPQ 193 (1980). The claims should be amended to indicate the hand of the inventor, e.g., by insertion of "Isolated " before "fragment". See MPEP 2105.

Art Unit: 1633

Conclusion

No claims are allowed.

The fragment consisting of residues 87-105 of SEQ ID NO:2 is free of prior art.
